Herrin Unit # 4 Board of Education consists of seven elected citizens of the unit area. Their function is to establish policy and appropriate funds for the unit schools. These men serve without pay and often without recognition. Their service is a community service in the *American Way of Life*!

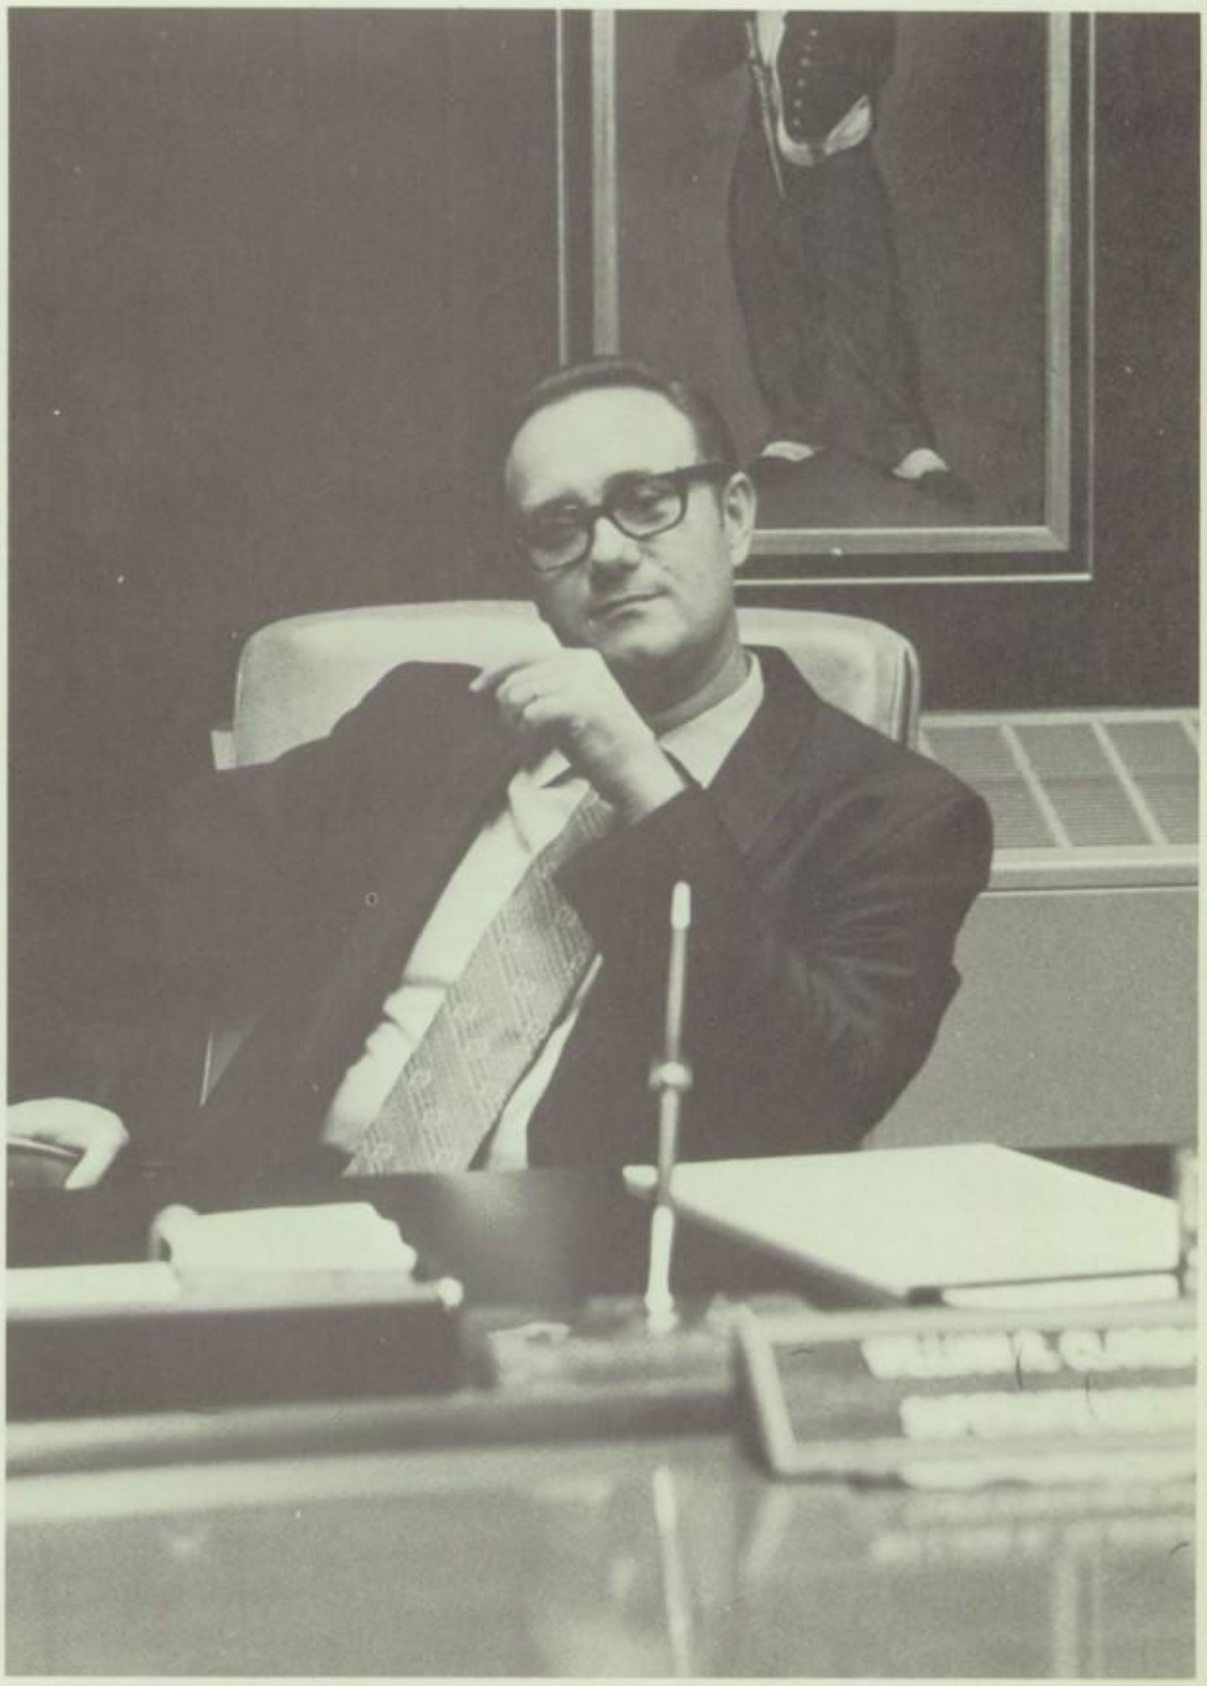
JACK SNYDER.



DR. WILLIAM CLARIDA is in his first year as Herrin Unit #4 School Superintendent. Dr. Clarida served the unit for many years as an outstanding band director. He is doing a comparable job as superintendent.

MR. RUSSELL EMERY, administrative assistant, has served the Unit since 1936. He has been a teacher, championship coach, and administrator.

MR. JACK MURPHY, an alum of Herrin High School, is in his first year as Curriculum Coordinator for Herrin Unit District #4. Mr. Murphy is in charge of the Resource Center and in charge of curriculum supervision.

MR. KENNETH RUSHING is Herrin High School's principal. An informal, affable man, Mr. Rushing is one of Herrin's busiest men. An ardent sports fan and outdoorsman, Mr. Rushing's only fault is that he works too hard. Herrin High School owes Mr. Rushing a great deal.

MR. RICHARD HENLEY,
assistant principal and athletic director.

During the time it has taken you to reach this important point in your education, Container Stapling Corporation has grown from only an idea to the world's largest exclusive manufacturer of industrial stapling equipment.

Each day shipments leave our Herrin plant—or our complete factory in St. Niklaas, Belgium—destined for points with such intriguing names as: Morocco, Martinique, Istanbul, Aden, Cape Town, Ghana, Bombay, as well as hundreds of other places throughout the world.

Right now, Container Stapling machines and staples are being used to close corrugated boxes packed with everything from dates to data processing equipment—washers to washing machines—bananas to band saws.

In addition, Federal Wire Mill Corporation uses the most modern methods to manufacture staple wire and boxmakers' stitching wire. For instance, it is the only stitching wire mill in the United States to use high vacuum annealing furnaces—a direct industrial application of space technology.

We know you are proud of these two locally owned and operated industries. But we are equally proud of your achievements—and wish for you success and happiness in all of your future endeavors.

Dear Students and Faculty

We, the staff of the 1971 **Herrinite,** proudly present this book as a record of Herrin High School's activities. We realize that we do not have the perfect book, but we sincerely feel that we have put a good book together. As a matter of fact, we think it's better than just good; it's **GREAT!**

If there are errors, we're sorry. We didn't make them intentionally. If we have slighted some organization or person, or if we have over-played some area, please accept our apologies. Sometimes, we couldn't avoid doing what we have done. Deadlines **are** deadlines.

We hope you'll like this book. We hope you'll put it with your treasured mementos of life at Herrin High School in 1970-71.

Sincerely,

CHAP I
Steve!
Hi! Cathi!
I don't
even know
where to begin!
These last four
years have really been
something! We've
been through a lot, we've
had really great times that
we'll remember forever. And
I know we'll remember some times that
weren't so great but I'd like to forget.
Then we've also had some really great times
I hope we'll always remember. But what I want to say
is that I'd like to thank you for all our
four years and I hope we'll always have a great friendship
and I want to wish you all the luck in the
years to come! (You could you?) Steve, I know you do and where ever you
will. But what ever you do — don't forget your ole' Jennie Jupp!"
please don't
Now you know (Huh?) I know you haven't always been very nice
to me — but I have learned to put
up with you and I may say this summer you've been very nice
as good as you can be. And even
sure you've had to help me
of the same!!! And I appreciated
At times you've made
me very, very mad
at times
you.
CHAP II
Steve decided at
Now, school is out and we'll all be
going our separate ways — and I know I'll be careful. I don't let
anyone give you any trouble — just please be careful. I don't
always
tried to help
everything you
Steve — you haven't always been very nice
to me — but I have learned to put
up with you and I may say this summer you've been very nice
as good as you can be. And even
sure you've had to help me
of the same!!! And I appreciated
At times you've made

at times
you.

CHAP III
me very
very, very
happy - I'd
guess you ought
to be since you're one of
the last TRUE friends
the person could ever ask
for. So Thanks for any
thing and I hope you'll always
come to me for
advice and help
about anything
at all. I just don't
want you to
have any regrets
later on. Just
remember that
I'm not always
around but
I'm sure there
is someone
else you can
talk to -
these years. I hope
that you can talk to
as I have done
complete self in
sure you know
Steve, Remember
chew my ice
Alex up try and make
Uncle Turner, I guess
leave some room for
always and I hope you have a
great summer. The End!
